What is Sungrow energy storage?

Sungrow have developed an innovative energy storage solution for residential applications. This battery system can be used to store excess solar generated for use at night, provide backup power for when the grid goes down or for full time off grid applications.

Are solar power systems a good investment in New Zealand?

We discuss our clients' requirements and provide a detailed Energy Management Solution to meet their needs. Solar power systems are a fantastic investment, wherever you are in New Zealand. For a start, your electricity bills will reduce, plus you will be protected from fluctuations in electricity prices.

What is a PowerVault solar cabinet?

The PowerVault is MEDA's flagship prebuilt solar cabinet-- our most powerful and scalable system to date. Designed to meet the needs of serious off-grid homes, rural properties, and remote commercial setups, it comes fully assembled with premium Victron and Dyness components and is housed in a heavy-duty, IP-rated cabinet.

Why do you need a solar battery storage system?

When it's needed, the batteries can then release this stored power to power your home. This includes at night, on a cloudy day, or even during a blackout. A solar battery storage system allows you to enjoy your solar power for longer. During blackouts, solar battery storage systems ensure you don't have to eat a cold dinner in the dark.

With warehousing located in Auckland and Christchurch, along with staff located in Auckland, Northland, Waikato, Nelson and Dunedin, we service ...

Our residential and commercial solar power and battery storage solutions can help you to control your energy
