What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

What is a cube enclosure?

Charles Universal Broadband Enclosures(CUBE) are constructed to withstand the elements and provide superior protection for active electronics in all environments. Designed to house a variety of communications equipment,CUBE customers take advantage of our engineering and factory integration for complete turn-key solutions.

Where can cube outdoor enclosures be used?

Cell towers, business parks, campuses, data centers, strip malls, sports stadiums, oil fields, wind farms, solar fields, lift stations, utility sub stations and traffic systems all rely on our expansive line of industry-leading CUBE outdoor enclosures. As connectivity skyrockets, so does the cost of service interruptions.

Let Rackmount Solutions help you find the right outdoor enclosure for your site. Not only can we get your cabinet, but we can size and mount your power systems to deploy on delivery!

When it comes to reliability, our KDM outdoor telecommunication cabinets are second to none. Built from stainless steel, aluminum, or galvanized steel, you can trust in their performance, no ...
