-----  
Why is Amsterdam launching a floating solar farm?

The Port of Amsterdam has received the first floating solar units for an offshore solar farm. These solar units will soon integrate with existing wind farms, forming one of the world's largest offshore solar projects and highlighting Amsterdam's leadership in sustainable energy.

Are floating solar panels coming to Hollandse KUST Noord?

The first floating solar panels for the Hollandse Kust Noord (HKN) offshore solar farm have arrived at the Port of Amsterdam, set for installation at the Dutch CrossWind HKN offshore wind farm.

Where can a modular water system be deployed?

According to Oceans of Energy, the Port of Amsterdam is well suited to deploy the system. Earlier this year, the company demonstrated the assembly of the modular system in Belgium where the system proved to be fast and easy to assemble. It is a matter of only days to assemble a full offshore system from factory into the water.
