---

In this article, we will examine all of the important power terminology and calculations that you need to know before starting your ...

Google has joined Meta and Microsoft's collaboration project on a power rack the companies hope will help them reach rack densities ...

Experts in direct liquid cooling and immersion cooling for data centers. Enabling you with a complete range of products and services to design, ...

Analyze the rising Data Center Rack Power Costs driven by AI. This article breaks down consumption, PUE's role, and provides cost ...

5 separate fluidic system pathways deliver liquid to air and liquid to chip cooling up to 2MW per rack. Each fluidic system can have different pressures and temperatures delivered to AI ...

Delta InfraSuite Datacenter management system featuring modular racks and accessories for customizing datacenters for mission critical applications.

This diagram is only an example of an electrical architecture and attempts to include all the possible major types of equipment used and their typical location in a data center. In the real ...

CoolIT's CHx2000 CDU delivers 2MW of liquid cooling in a standard rack, setting a new bar for AI and HPC data center performance.

E3's NOMAD is an all-inclusive 2-megawatt fully functional mobile/edge data center. NOMAD includes four modular buildings, 480 state-of-the-art ...

Google has joined Meta and Microsoft's collaboration project on a power rack the companies hope will help them reach rack densities of 1MW. Representatives from Google, ...

DXN, an Australian manufacturer of containerized data centers, has launched a liquid-cooled module. The company this week ...

Digital Realty entered Nigeria in 2021, acquiring Medallion Data Centers alongside African infrastructure investment firm Pembani Remgro Infrastructure Fund. At the time, the ...

Full rack with 72 NVIDIA Blackwell GPUs, 36 NVIDIA Grace CPUs and 5th-gen NVIDIA NVLink, enabling trillion-parameter LLM inference and training. Supports liquid cooling and scale-up ...

Servers are the primary component of data centers, and are housed in racks. A typical data center rack has 42 units ("U"), with each unit taking up 1.75 inches of vertical ...

Delivers a staggering 2MW of heat rejection in 35°C (95°F) ambient air temperature, ensuring optimal cooling performance for even the densest ...

VSDData is planning a new data center outside Yerevan, Armenia. The company this week announced plans for a 2MW, 125-rack ...

Data center stats you should know for 2025. A comprehensive list of 255 verified colocation and data center statistics ...

US data center firm Switch has launched a new data center design it claims can support up to 2MW per rack. The company has also ...
