Can battery energy storage systems transform business in the Philippines?

Battery Energy Storage Systems have the potential to transform how commercial and industrial companies in the Philippines manage their energy needs. With benefits ranging from cost reduction to energy supply stability, BESS is a compelling solution. While the initial investment may vary, the long-term advantages are undeniable.

What is energy cube 50kW-100kWh C&I ESS?

Energy Cube 50kW-100kWh C&I ESS integrates photovoltaic inverters and a 100 kWh energy storage system. It includes battery cells, Battery Management System (BMS), photovoltaic inverters, fire protection system, distribution system, thermal management system, and energy management system. This achieves an integrated "PV +Energy Storage" solution.

What is a battery energy storage system?

One such solution gaining significant traction is Battery Energy Storage Systems (BESS). These cutting-edge systems are revolutionizing the way commercial and industrial companies manage their energy needs.

Who provides fractionalized battery energy storage?

We are partnered with NexVolt, the first in the Philippines to provide fractionalized Battery Energy Storage. NexVolt, through their cutting edge technology, ensures even Small Medium Enterprises (SMEs) can adopt inexpensive battery energy storage systems and kickstart their journey towards energy independence.
