Why do you need a lithium-ion battery cabinet?

Improper storage of lithium-ion batteries can lead to fires and dangerous situations. That's why, at Fuel Tank Shop, we offer a comprehensive range of lithium-ion battery cabinets designed to safeguard your batteries and your workplace. Our cabinets are constructed with durable materials and innovative features to prioritise safety.

What is a lithium ion cabinet?

A lithium-ion cabinet is a specialist storage solution designed to safely house lithium batteries. It offers fire-resistant construction, secure locking, and controlled ventilation to minimise the risk of fire, thermal runaway, or toxic gas release. What added value does a battery charging cabinet offer?

Are lithium battery storage cabinets fire resistant?

Our new generation of lithium battery storage cabinets offer double-sided fire resistance, 90 minutes of certified protection, and specialist features for both storage and charging. Indoors or outdoors, you get peace of mind with proven engineering on your side. Imagine a fire breaks out in your building.

Where can I buy a battery storage cabinet?

Buy online with Kingfisher Direct or call us on 01777 858009 if you have any questions. Why choose our fire-safe battery storage cabinets? We have a variety of sizes and shapes of lithium battery storage cabinets that provide a robust and dependable energy storage solution tailored to your business needs.
