Does solar radiation affect A320 planes?

In a statement, the European aircraft manufacturer said that "intense solar radiation may corrupt data critical to the functioning of flight controls" on its A320 family of jets, the most popular series of passenger airplanes in the world. The issue will not affect every A320 plane, but about 6,000 are affected globally.

How many A320 planes are affected by a software issue?

The issue will not affect every A320 plane, but about 6,000 are affected globally. In most cases, the issue can be addressed relatively quickly by reverting to a previous software version. About 1,000 older planes will need new hardware installed, and that will take more time.

How many A320s are in use?

In the United States, there are at least 1,600 A320 jets in regular use by U.S. airlines, according to Cirium, an aviation data firm. American Airlines is the world's largest operator of the planes, with about 480 in service. Of those, about 340 were first identified as requiring the software update, though the final number may be lower.

Will the Airbus A320 'before next flight' requirement affect maintenance capacity?

The A320 Family remains the most widely used single-aisle fleet globally, and the "before next flight" requirement is likely to create pressure on maintenance capacity in the coming days. Airbus said it is working closely with operators and regulators to ensure the fleet remains safe to fly.

Discover IP55-rated solar power cabinets for outdoor installations. Ideal for solar panel systems and energy storage. Find robust enclosures built for reliability and long-term performance in ...

With durable construction the Outdoor Type 3 power cabinet incorporates tailored thermal systems (fan/filters, air conditioners, Heat exchangers, ...

Generac PWRcell battery cabinet for Solar Power Systems Scales Usable Energy from 9kWh to 18kWh. Add

a second cabinet for up to 36kWh total ...

Outdoor power cabinets, DC power systems, batteries, rectifiers, radio enclosures, and equipment racks for telecommunications equipment backup and protection, site optimization, power ...

Outdoor power cabinet The Type 3 cabinet platform is designed for a variety of applications and can be tailored to fit your specific needs. The cabinet is well suited for power, batteries and ...
