-----  
What equipment does Andor manufacture?

Andor designs, manufactures, and sells scientific imaging equipment, including charge-coupled device (CCD), electron-multiplying CCD (EMCCD), scientific CMOS (sCMOS - an improved Active pixel sensor), and intensified charge-coupled device camera systems, spectroscopy instrumentation, laser-based and laser-free microscopy systems and software.

What accessories does Andor offer?

Andor supply a portfolio of accessories to compliment the range of scientific digital cameras. These range from standard 'off the shelf' products, such as recirculators or chillers, to custom-made parts that are designed and manufactured by Andor as part of a specific solution. Standard windows have been selected to satisfy most applications.

What is Phihong power supply?

AC/DC adapters and power supplies for medical applications. As a power supply manufacturer, Phihong is focused on providing reliable cost-effective power solutions for consumer, telecom, datacom, enterprise, industrial, and medical applications.
