What are solar battery storage cabinets?

For those of you harnessing the power of our favorite nearby star, solar battery storage cabinets are like a spa retreat for your sun-soaked energy. These specialized enclosures are designed to keep your solar batteries at optimal temperatures, protected from the elements, and ready to power your eco-friendly dreams.

What is a custom built Battery Cabinet?

AUS-POWER Batteries custom built battery cabinets are the ideal solution for those larger installations or anyone requiring a secure, professional and practical installation. The cabinets contain two lockable doors (front and back) and removable side panels for easy access.

What storage solutions are available for battery energy batteries?

Our space efficient storage solutions for batteries are designed to accommodate vertically or horizontally installed Battery Energy batteries. Horizontal rack configurations offer a minimum 600mm x 600mm footprint of and can cater for up to eight fully adjustable shelves.

What are pre-wired cabinets?

Our pre-wired cabinets minimise the time required to install batteries and inverter equipment on-site. Ranging from small battery enclosures to cabinets, including gear trays you can pre-build and test in the workshop, simplifying site installation. Suitable for protected environments, our Rack cabinets make the most of the available floor space.
