-----  
Which solar charger is best for base camping?

The Goal Zero Nomad 50 is a larger solar charger that is our winner for best for base camping. At 50 watts, it's the biggest and heaviest solar charger we tried. Like the Nomad 20, it can be linked to other solar panels and the only one that can be attached in a series to provide even greater charging power to a battery power bank.

What is the best portable solar charger for outdoor adventures?

The best portable solar chargers for outdoor adventures feature the BigBlue 28W USB Solar Charger as our overall winner, delivering reliable power for camping, backpacking, and outdoor activities while weighing just over a pound. I'm a science writer who has been covering solar energy and writing about renewable energy for the past ten years.

Which solar charger is best for backpacking?

Though the BioLite SolarPanel 10+ is the smallest solar charger we tested at just 10 watts, it's the most fully featured and the only solar charger we tested that came with an integrated battery that works as a power bank. For this reason, the BioLite SolarPanel 10+ is our winner for best solar charger for backpacking.

What are portable solar panels for camping?

The majority of portable solar panels for camping are pretty minimal in terms of features. Most consist primarily of the panel and USB ports. Additional features include a pocket for cables, grommets or loops to attach the panels to a pack or tent, and on some, stands to help keep the panel upright and at the right angle.
