Can you export lithium batteries by sea?

However, since lithium batteries are classified as dangerous goods, exporting them by sea involves strict classification, packaging, and customs compliance. This article provides a complete guide to help you ship smoothly and avoid costly delays.

Do you need a certification to export lithium batteries?

Note: Some destinations (such as the US, EU, or Australia) may also require UN38.3 test reports, IEC certificates, or technical battery specs. Always check destination-specific regulations. Exporting lithium batteries may seem complex, but if you:

Can a lithium battery be exported as non-DG?

Not all lithium battery products require full DG procedures. Some can be certified as general cargo after inspection by an authorized lab. If the product is certified as general cargo (e.g., low power, installed in device, compliant packaging), it can be exported as non-DG.

Are lithium batteries subject to Chinese customs supervision conditions?

Even though lithium batteries are not subject to Chinese customs supervision conditions, the following documents are essential for smooth booking and clearance: Note: Some destinations (such as the US, EU, or Australia) may also require UN38.3 test reports, IEC certificates, or technical battery specs. Always check destination-specific regulations.
