What is a lithium ion battery storage cabinet?

This 83L Single Door Lithium Ion Battery Storage Cabinet is designed for safe, smart Li-Ion battery charging, featuring a smart cooling system, double steel walls, four adjustable shelves with 20 plug sockets, and advanced safety features compliant with FM6050, OSHA, and NFPA standards.

What is a lithium ion battery charging cabinet?

Lithium-ion battery charging cabinets are designed for both the charging and the storage of li-ion cells. Therefore, whatever charge your battery is on, you can store it in the cabinet until it is required by your staff.

How many charging ports does a battery cabinet have?

With up to 18 charging ports offering a 10amp flow, our electrically certified battery cabinet will provide you with all the power you require. Charging points, poles and cabinet shelving can be easily rearranged to accommodate the size and number of battery chargers that you have onsite.

How many lithium ion batteries can a storemasta Battery Cabinet charge?

A Storemasta lithium-ion battery cabinet can simultaneously charge multiple workplace batteries in a safe and protected environment. Storemasta offers an 8 and 18 outlet model of battery cabinet, which allows the user to charge up to 8 or 18 li-ion batteries - depending on the chosen model.
