Where is a 300 MW photovoltaic power station being built?

Bishkek, 21 May 2024. The Eurasian Development Bank (EDB) and Bishkek Solar have signed a cooperation agreement to finance the construction of a 300 MW photovoltaic power station in Toru-Aigyr village, Issyk-Kul Region, Kyrgyz Republic. The signing ceremony took place on 21 May in Bishkek, Kyrgyzstan.

Will EDB build a hydropower plant in Kyrgyzstan?

The power plant will fully comply with international environmental and technical standards," said Denis Ilin, EDB Senior Managing Director. In the meantime, the lender is also participating in a project to build and operate the USD-127-million Kulanak hydropower plant in Kyrgyzstan. (USD 1.0 = EUR 0.923)

Where is Kyrgyzstan building a new solar power plant?

Kyrgyzstan has launched the construction of a new solar power plant in the Kemin district of the Chui region, approximately 100 kilometers east of the capital, Bishkek. The plant will have a capacity of 100 MW and is expected to generate 155 million kWh of electricity annually.

Will EDB's Kulanak power plant comply with international standards?

The power plant will fully comply with international environmental and technical standards," emphasised Denis Ilin, EDB Senior Managing Director. The EDB is also implementing a project for the construction and operation of the Kulanak HPP, worth up to US \$127 million.
