This chapter supports procurement of energy storage systems (ESS) and services, primarily through the development of procurement documents such as Requests for Proposal (RFPs), ...

The integration of PV-energy storage in smart buildings is discussed together with the role of energy storage for PV in the context of future energy storage developments.

On May 13, 2025, the New York State Energy Research and Development Authority ("NYSERDA") released a draft Index Storage Credit Request for Proposals ...

On May 13, 2025, the New York State Energy Research and Development Authority ("NYSERDA") released a draft Index Storage ...

Provides federal agencies with a standard set of tasks, questions, and reference points to assist in the early stages of battery ...

On July 28, 2025, Governor Kathy Hochul announced the launch of New York State's first bulk energy storage competitive solicitation.

Under the upcoming bulk storage incentive solicitations, energy storage developers will competitively bid in to be awarded an Index Storage Credit (ISC), which is a ...

The Order, issued June 2024, establishes new and expanded programs to help the State meet the 6GW goal, with the bulk of new storage procured via NYSERDA ...

NYSEG has developed a request for proposal (RFP) to procure a minimum of 10 MW of energy storage projects to be in service by December 31, 2030. This initiative will help meet energy ...

NFPA is undertaking initiatives including training, standards development, and research so that various stakeholders can safely embrace renewable energy sources and respond if potential ...

These considerations help utilities and developers navigate the complexities of utility-scale energy storage projects, ensuring they are economically viable and operationally ...

Governor Kathy Hochul today announced the launch of New York's first Bulk Energy Storage Request for Proposals (RFP), intended to procure one gigawatt (GW) of bulk ...

Solar Energy Technologies Office Updated 2030 Goals for Utility-Scale Photovoltaics The U.S. Department of Energy (DOE) Solar Energy Technologies Office (SETO) works to help ...

Dive Brief: The New Jersey Board of Public Utilities plans to procure at least 1 GW of transmission-scale energy storage in two ...

The U.S. Department of Energy's solar office and its national laboratory partners analyze cost data for U.S. solar photovoltaic systems to develop ...

As discussed in greater detail below, these different ...

Under the upcoming bulk storage incentive solicitations, energy storage developers will competitively bid in to be awarded an ...

Project Polo will deploy commercial-scale PV and storage to create integrated virtual power plants across 27 states.
