Where is Canada's largest battery storage facility located?

The Oneida Energy Storage Project, Canada's largest grid-scale battery storage facility and one of the largest globally, has officially begun commercial operations. Located in Haldimand County, Ontario, the 250-megawatt (MW) / 1,000-megawatt-hour (MWh) facility is powered by 278 Tesla Megapacks.

Will Ontario's biggest energy storage plant spark a grid revolution?

Ontario will switch on the country's biggest energy storage facility next summer, taking a key step in transforming an aging electricity network aiming to be net-zero by 2035 -- and one that could spark the grid revolution the province needs. Aerial view of the Oneida energy storage project, Canada's biggest battery plant, in southwest Ontario.

What is the Oneida battery energy storage project?

Oneida Battery Energy Storage Project, April 2025 TORONTO, May 07, 2025 (GLOBE NEWSWIRE) -- The Oneida Energy Storage Project ("Oneida") has officially entered commercial operations, becoming the largest battery energy storage facility in operations in Canada, and one of the largest globally.

Is Northland the largest battery energy storage facility in Canada?

The project was completed ahead of schedule and under budget and is the largest battery energy storage facility in operation in Canada. "Today marks a major milestone for Northland and the Oneida project," said Christine Healy, President & Chief Executive Officer of Northland.
