Our off-grid solar energy systems are flexible and can be scaled to match your changing energy needs in Canberra, ACT. 1. Small House Off-Grid Model (3-5kW)

Why should you choose a solar installer in Canberra?

Embracing solar energy in Canberra is a smart move. Partnering with a certified SolarEdge installer ensures your system delivers maximum efficiency and reliability. SolarEdge installers offer a full range of services, from initial consultation to ongoing maintenance. Use our handy tool to find a solar installer in your area now.

Are solar panels a good investment in Canberra?

Yes, solar panels are a good investment in Canberra. With 4.8 sun hours per day, households can lower electricity bills and increase energy independence. Self-consumption is the key to savings, as feed-in tariffs (FiTs) are low (7-10c/kWh). Payback period: Typically 4 to 8 years, depending on system size and usage patterns.

How much does a solar system cost in Canberra?

Solar Choice regularly publishes articles with indicative pricing for PV systems in Australia's capital cities (including Canberra) in our Solar Choice Price Index. Based on the price index data from March 2025, we can see that in Canberra a typical 6 kw solar system would cost \$5,420 on average after deducting the STC rebate and including GST.

Embracing solar energy in Canberra is a smart move. Partnering with a certified SolarEdge installer ensures your system delivers maximum efficiency and reliability. SolarEdge installers ...
