What are chemical storage cabinets?

WhatsApp Now! Chemical storage cabinets are of many varieties and different uses. Acid, Flammable, Gas Cylinder, Oxidizer & Pesticide Cabinets are common.

What is a Waldner cabinet for chemicals?

A cabinet for chemicals is specifically designed for the varied requirements of a laboratory and therefore a safe and legally-compliant storage solution for hazardous materials. Waldner cabinets for chemicals not only provide safe storage space, but also ensure the laboratory remains efficient and tidy during its day-to-day operations.

Are chemical storage cabinets safe?

Chemicals on their own can be hazardous. However, when incompatible chemicals interact, the danger increases significantly. Hence, proper storage is essential to reduce risk. This is where chemical storage cabinets come into play. Flammable liquids, corrosives, and toxic gases must be stored according to established safety standards.

What is ChemSafe filtered storage cabinet made of?

ChemSafe is constructed from thermally fused polypropylene, offering superior chemical resistance and no moisture absorption. Polypropylene is an ideal construction material for these reasons. AirSafe™; Automatic Safety Controller is standard on each ChemSafe Filtered Storage Cabinet.
