Where is the main railway station in Vienna?

Wien Hauptbahnhof, Vienna Central Station or Vienna Main Station[a] is the main railway station in Vienna, Austria, located in the Favoriten district. It became fully operational in December 2015, linking major railway lines from the north, east, south and west, and replacing the old Wien Südbahnhof terminus.

Who are the developers of a new building in Vienna?

The project developers were Wiener Stadtwerke Holding AG, and STC - Swiss Town Consult AG. During the renovation works on an ancient heritage building from the late 18th century on Vienna's traditional Berggasse, a bricked up staircase was found.

What makes Vienna's new architecture a good idea?

A residential and business project on the premises of the former Northern Railway Station, in one of Vienna's most exciting urban development areas. An example of how the unbridled will of a family not to tear down the old house has inspired the new architecture in the most positive way.

How much does a new train station cost in Vienna?

On 15 December 2006, the city council of Vienna gave its consent to the construction of a new station in the city; at the time, the city authorities had assessed the project's cost to be around 850 million euros.
