What is the difference between sun shield enclosures IP66 & desert enclosures?

Sun Shield Enclosures IP66 provides protection for single or multiple instruments, preventing instrument calibration drift due to temperature changes caused by solar radiation. Desert enclosure will shield instruments from the sun and provide partial protection from falling objects, rain, snow, and wind blown sand.

What is ip66 waterproof & dust protection?

Robust, Ip66 waterproof and dust protection, developed and designed for outdoor use and more specifically for installations with extreme climatic conditions, such as solar or wind parks ensuring maximum resistance thanks to the stainless steel which it is manufactured with and greatly appreciated in Delvalle's experience with the major brands.

What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.
