-----  
Are IP54 electrical enclosures good?

Our IP54 enclosures have a high level of protection against particles, and a fair amount of protection against water. All of our enclosures rigorously comply with the guidelines, so you can count on quality and cost-efficient enclosures. What Are Characteristics of IP54 Electrical Enclosures?

What is a rPDU (rack power distribution unit)?

Every rPDU (Rack Power Distribution Unit) released by Delta is a result of our total commitment to engineering the most efficient and reliable power solutions on the market. They can be trusted for reliable power distribution while also offering protection for devices inside the rack.

What is a rack power distribution unit?

Legrand's Raritan® and Server Technology® brands are the global leaders in intelligent rack power distribution units (rack PDUs). From high-tech startups to hyperscale critical facilities, they are regarded as the standard in powering, monitoring, and managing critical infrastructure.

How do I know if my enclosure is IP54?

The code labels an enclosure's IP followed by two numbers; the first digit shows the extent to which equipment is protected against particles, and the second digit indicates the extent of protection against water. Our IP54 enclosures have a high level of protection against particles, and a fair amount of protection against water.

Whether you're setting up a new rack-mounted system or upgrading your existing setup, our power supplies offer the performance and reliability you need to keep your communication ...

The Vertiv K&#252;r SMA Compact Rack IP 54 is prepared for applications in rough environments, for example factories. It is completely closed and offers an IP rating up to IP 54.
