Why should you invest in the park Biel/Bienne?

The Park Biel/Bienne can tap into the strong industrial potential in the Bern region, which boasts a higher density of high-tech companies than anywhere else in Switzerland. The Park Biel/Bienne will help industrial companies from the Canton of Bern to play an even stronger role in the world markets in future.

What is Switzerland Innovation Park Biel/Bienne?

The Switzerland Innovation Park Biel/Bienne brings together companies, researchers, and specialists. Its state-of-the-art infrastructure creates an attractive innovation ecosystem that is also intended to form a bridge between the French-speaking and German-speaking parts of Switzerland.

What does Park Biel/Bienne do?

The Park Biel/Bienne offers a full range of services for taking products from idea to market maturity and a high-quality research infrastructure for developing and producing prototypes and small series. It also serves as a development testing ground for industrial companies of any size.

The Energy Storage In Industrial Parks Market was valued at 12 billion in 2025 and is projected to grow at a CAGR of 8.43% from 2026 to 2033, reaching an estimated 22.93 billion ...

To tackle these issues, this paper develops a novel business mode to enable rental energy storage sharing among multiple users within an industrial park, and propose a ...

The rapid scaling up of energy storage systems will be critical to address the hour-to-hour variability of wind and solar PV electricity generation on the grid, especially as their share of ...

Breaking Down the Bern Energy Storage Project Investment Backed by CHF 450 million (approximately \$500 million), the Bern project ranks among Europe's most ambitious grid ...

There are approximately 2500 national and provincial industrial parks in China, with a total area of more than 30,000 square kilometers [2]. In these industrial parks, 87 % of ...

An optimization strategy for storage capacity is proposed to enhance operational efficiency and maximize local renewable energy usage in industrial park microgrids. This ...

That's essentially what the Berne Integrated Energy Storage Project aims to achieve - but instead of chewing through AA batteries like your TV remote, we're talking about ...

Discover how Bern's innovative energy storage initiatives are addressing grid stability challenges while creating opportunities for international collaboration in renewable energy solutions.

The Importance of Energy Storage Systems for Industrial Parks In modern industrial processes, industrial parks have enormous power demands and ...

Discover how Bern's innovative energy storage initiatives are addressing grid stability challenges while creating opportunities for international collaboration in renewable energy solutions.

On this basis, an optimization decision model is established with the core objective of maximizing the annual net profit of the park. The objective function takes into account ...

The Energy Storage in Industrial Parks Market size is expected to reach USD 15.8 billion in 2034 registering a CAGR of 11.5. This Energy Storage in Industrial Parks Market ...

We investigate the storage investment decision of community electrical and thermal energy storage for an energy community with an industrial consumer and an urban area with ...

The project forms part of the large-scale Waltrop Battery Park, with a combined total power capacity of 900 MW and an expected energy capacity of 1,800 MWh, making it one ...

As a flexible and mobile energy storage solution, energy storage containers have broad application prospects in grid regulation, emergency backup power, and renewable energy ...

The Park Biel/Bienne can tap into the strong industrial potential in the Bern region, which boasts a higher density of high-tech companies than anywhere else in Switzerland.

Boralex and partner SNGRDC closed a CA\$538 (US\$372.82) million financing for Canada's 200MW/1,200MWh BESS park.
