Today's energy storage technologies are not sufficiently scaled or affordable enough to meet energy demand that fluctuates throughout the day and night. Long-duration energy storage ...

RIVERSIDE - The Riverside County Board of Supervisors today approved an agreement with Eagle Crest Energy Company that would provide \$77 million of community ...

Accelerated by DOE initiatives, multiple tax credits under the Bipartisan Infrastructure Law and Inflation Reduction Act, and decarbonization goals across the public and private sectors, ...

Energy storage is most valuable where the grid needs support - places with high levels of renewable penetration, constrained or outdated ...

This comprehensive guide walks developers through the entire process, includes a step-by-step checklist, and highlights common pitfalls to avoid so you deliver solar and energy storage ...

Expertly plan your energy storage system implementation to optimize performance and maximize returns on investment. Develop a tailored strategy for a seamless integration process.

This Energy Storage Best Practice Guide (Guide or BPGs) covers eight key aspect areas of an energy storage project proposal, including Project Development, Engineering, ...

Approved Plans Include Significant Fire Safety Features ALBANY -- The New York State Public Service Commission (Commission) today approved the construction and operation of a battery ...

New project in Finland Finland has announced plans to build up to three small-scale pumped storage hydropower plants in the ...

Battery energy storage system Tehachapi Energy Storage Project, Tehachapi, California A battery energy storage system (BESS), battery ...

But not just any plans -- these are the core design documents that chart every safety consideration, answer stakeholders' questions and de-risk energy storage projects.

The 400 MWh battery energy storage system (BESS) was acquired from developer Baywa r.e., along with a nearby utility-scale solar plant, in 2022.

A typical energy storage deployment will consist of multiple project phases, including (1) planning (project initiation, development, and design activities), (2) procurement, (3) construction, (4) ...

Government Market News | Mary Scott Nabers Insights | Battery storage projects surge as utilities prepare for next grid era in 2026 | Battery storage projects nationwide are ...

Supernode is an internationally significant digital infrastructure project combining both critical energy and data storage capacity to be ...

Brisbane - 16 April 2025 - Quinbrook Infrastructure Partners ("Quinbrook"), a specialist global investment manager focused exclusively on the ...

Blueleaf Energy and Chemsain Sustainability have signed a memorandum of understanding to explore development of up to 3GW of solar photovoltaic and battery energy ...

The Department of Energy's (DOE) Energy Storage Strategy and Roadmap (SRM) represents a significantly expanded strategic revision on the original ESGC 2020 Roadmap.
