What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

Why should you choose a telecommunication cabinet?

Our telecom cabinets are built to withstand the toughest conditions, ensuring your equipment stays safe and secure. Designed with user convenience in mind, our cabinets provide easy access to all your telecom equipment for quick maintenance. Choose from a variety of sizes and configurations to meet your specific telecommunication needs.

Are Iceberg telecommunication cabinets Baba certified?

BABA certified. Cooling and heating powered by Dantherm. At Iceberg, we specialize in providing telecommunication cabinets designed to house your essential equipment securely. Our solutions are tailored to meet the demands of modern connectivity, ensuring your operations run smoothly and efficiently.
