-----  
What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

Why should you choose a telecommunication cabinet?

Our telecom cabinets are built to withstand the toughest conditions, ensuring your equipment stays safe and secure. Designed with user convenience in mind, our cabinets provide easy access to all your telecom equipment for quick maintenance. Choose from a variety of sizes and configurations to meet your specific telecommunication needs.

Why should you choose NEMA 3R telecom equipment cabinets?

Unauthorized access: These cabinets are durable and lockable for reliable protection against equipment theft, vandalism and access by unauthorized personnel. These products also offer unique advantages. Our NEMA 3R telecom equipment cabinets provide excellent protection from solid objects like dirt, clay and gravel.

What materials can be used for a telecom pedestal enclosure?

Whether you need a telecom pedestal enclosure or a large cabinet with multiple doors, our team will create a design using your choice of stainless steel, carbon steel or lightweight aluminum. You can also choose from a wide range of optional features to include in your custom design, including:
