-----  
What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

What is a telecommunications enclosure?

Telecommunications enclosures are used in protecting electrical equipment in charge of transporting voice, video and other data for a number of industries. Telecommunications companies rely on custom and standard NEMA-rated electrical boxes to protect their sensitive equipment.

Who makes a telecom enclosure?

Bison manufactures telecom enclosures at a competitive unit cost & rapid turnaround that are used in protecting electrical equipment. Request a quote today!

Why do telecommunications companies need a custom enclosure?

Telecommunications companies rely on custom and standard NEMA-rated electrical boxes to protect their sensitive equipment. Custom enclosures are often needed because installers constantly struggle to adapt off-the-shelf products to unusual requirements. Why Choose Bison ProFab?
