What is the best solar incentive in Georgia?

The best solar incentive in Georgia is actually a federal tax credit. The Residential Clean Energy Credit, formerly known as the federal investment tax credit (ITC), can reduce your solar panel system's cost by 30%. Your entire system, including all the equipment, labor, permitting, and sales tax, qualifies for the ITC.

Does Georgia have a solar rebate program?

As of January, Georgia doesn't have any local incentives or rebate programs. However, Georgia Power will buy back the excess energy a solar panel system creates at a rate less than the retail cost of energy.

How much does a 5 kW solar panel cost in Georgia?

In Georgia, the average cost for a 5 kW solar panel system is around \$13,160. Once you factor in the 30% credit, the cost of a solar panel system in Georgia comes down to \$9,212. When you file your taxes, you can claim this incentive as a credit towards your federal tax bill.

Will Georgia Power Buy Back solar energy?

However, Georgia Power will buy back the excess energy a solar panel system creates at a rate less than the retail cost of energy. The Georgia Environmental Finance Authority Solar Program is renowned as one of the state's top incentives for fostering the growth of large-scale renewable energy projects.
