Is Berenberg partnering with obton to finance a battery storage system?

PRESS RELEASE - Berenberg and international solar park and BESS investor Obton are expanding their cooperation with a junior debt project financing for one of Germany's largest standalone Battery Storage Systems (BESS).

Is German battery storage a good investment?

German Battery Storage on a Ri... High and further increasing volatility of power prices due to the expansion of renewables on the one hand and significantly decreasing prices for battery cells in recent years on the other hand have led to a highly attractive market environment for battery storage (BESS) projects in Germany.

How big is Germany's battery storage market?

The battery storage market Germany has achieved remarkable momentum, with total installed battery capacity reaching approximately 16 GWh by mid-2024, distributed across residential systems (13 GWh), commercial storage systems (1.1 GWh), and utility scale projects (1.8 GWh).

Why is the battery storage market growing in Germany?

The battery storage market Germany is experiencing rapid expansion due to several converging factors. Foremost is the energy transition mandate requiring 80% renewable electricity by 2030, which necessitates substantial storage capacity for grid stability.

Germany's Federal Financial Supervisory Authority (BaFin) has recently updated its guidance notice (Merkblatt) on the regulatory ...

Enter the new energy storage financing leasing program, the financial Swiss Army knife turning "impossible" into "installable". Think of it as Tinder for your Tesla Megapack - ...
