What is a solar-powered street light pole?

Solar-powered street light pole featuring a 20-40 watt Cobra-head style LED fixture with one solar panel. A decorative design with the most advanced LED lamp (CREE XPG-3) on the market, ranging from 30-80 watt. Please visit our Solar Lighting Systems page for additional details and specifications.

What are solar street lights?

Thank you for your support! Solar street lights are an innovative, energy-efficient solution illuminating the path to a greener future. Harnessing the sun's power, these lights provide reliable, cost-effective lighting for various outdoor settings, from bustling city streets to serene park pathways.

How to choose a solar street light?

Before buying any solar street light, you need to check its brightness measured in lumens. So, high lumens mean better lighting. You can buy one with 2700 or 6000 lumens, depending upon the area you want to illuminate. The lighting range of a street light will tell you the area it can light up.

Are greenshine solar street lights a good choice?

Greenshine solar street lights provide high-intensity lighting at night while consuming no electricity. These quality solar-powered street lighting solutions are extremely cost-effective, best for enhancing safety, easy to install, and require no monthly fees for electricity usage.
