Where can I find IP55 enclosures?

Find IP55 enclosures at Bison Profab, offering reliable protection against dust and low-pressure water jets. Learn about IP55 specifications and ideal uses.

Are IP55 enclosures good for outdoor use?

IP55 enclosures are great for indoor and light outdoor environments where occasional dust and water exposure are expected, but nothing extreme. Think workshops, HVAC systems, or sheltered outdoor panels. ? Dust can enter in small amounts, but won't affect performance. ? Water from a standard hose won't cause damage.

Why are IP65 enclosures so expensive?

IP65 enclosures are built with stronger gaskets, tighter seals, and often thicker housing materials. This added protection requires: That's why IP65 models can be 10-25% more expensive than similar IP55 units, depending on size, brand, and material (plastic vs stainless steel).

What does the second digit mean in an IP55 enclosure?

The second digit indicates the extent of protection against water. We carry IP55 enclosures that demonstrate almost complete protection from particles and a good level of protection against water. All of our enclosures rigidly adhere to the guidelines, so you can count on outstanding and cost-effective enclosures.
