What is the tariff & trade data platform?

The Tariff & Trade Data platform provides official tariff and import data for more than 150 economies, including annual data from 1996 onwards for many of them.

What are India tariffs on US exports?

The India tariffs on US exports refer to the 50% duties imposed by the US government on a wide range of Indian goods in 2025. Announced on August 6, 2025, and enforced from August 27, 2025, these tariffs were justified under Section 232 (National Security) and Section 301 (Unfair Trade Practices) of US trade laws.

What is a WTO tariff table?

It is a joint publication of the WTO, the International Trade Centre and UN Trade and Development (UNCTAD). Summary tables, providing data by country/territory, list the average "bound" (maximum) tariffs each economy can apply to its imports from other WTO members as well as the tariffs actually applied.

What is tariff & trade data (ADB)?

The ADB serves as the main source for platform statistics and is also available for download in raw format. Tariff & Trade Data is currently in its beta version. As a result, some functionalities and pages may evolve, and additional features will be introduced over time. For questions or feedback, please contact us at ttd@wto.org.

Explore applied tariffs, bound duties, import/export trends, and compare trade relationships with the most detailed global database. Download raw data for further analysis.
