What is an IP55 outdoor Telecom cabinet?

IP55 outdoor telecom cabinet is the perfect choice for those seeking a solution-oriented project. Equipped with enhanced and solid profile technology

What is an IP55 enclosure?

IP55 enclosures offer a balanced level of protection for outdoor telecom, electrical, and industrial equipment, providing reliable performance across most climate zones. When properly selected and equipped, they ensure long-term operational stability even in demanding conditions.

What is an IP55 rating in outdoor cabinets?

The IP rating on enclosures is an international protection standard that indicates how well the cabinet is protected against two factors: the ingress of dust or solid particles, and the ingress of water.

What does IP55 mean?

The IP55 marking includes two digits that determine the nature and intensity of the enclosure's protection against external influences. The first digit "5" means that the cabinet is protected against dust to a level that prevents particles from interfering with the operation of telecom, electrical, or industrial equipment.

KDST offers custom outdoor enclosures with IP55 to IP67 and NEMA 3R to 6 Mga rating, suitable for harsh environments. Our products include stainless steel, galvanized steel, and aluminum ...
