Where can I find the instruction manual for the batteries?

Inside the door there is a document pocket containing the instruction manual for the batteries. The sections can be fixed together to form a single cabinet. Where required, the cabinet is completed by a special compartment or switch/disconnector cubicle containing the protection equipment.

How do you put a battery cabinet aside a ups?

Carefully slide the battery cabinet off the pallet. Now the battery cabinet is ready to be placed aside the UPS. Both sides can be used for battery cabinet placement but for easier service access to UPS, on the 93PM 30-150 kW UPS right side is preferred, and on the 93PM 160-200 kW left side is preferred.

Where do I install a line-up and match Battery Cabinet?

Line-up-and-match battery cabinets are installed adjacent to the UPS. The recommended installation location is on the right side of the UPS cabinet. See Figure 2 and Figure 3 for line-up-and-match configuration views. Contains two or three battery strings to be used with the 93E 30 kVA UPS.

Is the battery cabinet safe?

The properly installed enclosure is earthed and IP21 rated against foreign objects and is safe to operate. However, only qualified personnel are allowed to install and service the battery cabinet. This equipment contains LETHAL VOLTAGES. All repairs and service should be performed by **AUTHORIZED SERVICE PERSONNEL ONLY**.
