What is a rack power distribution unit?

Legrand's Raritan® and Server Technology® brands are the global leaders in intelligent rack power distribution units (rack PDUs). From high-tech startups to hyperscale critical facilities, they are regarded as the standard in powering, monitoring, and managing critical infrastructure.

What is a PX intelligent rack PDU?

The PX offers more than just power distribution--it's a launch pad for real-time remote power metering, environmental monitoring, and data center infrastructure management. The PX intelligent rack PDU delivers the technology which enables a smarter IT infrastructure so you can stay ahead of problems before they occur.

Why should you choose Raritan rack PDUs?

Known for industry-leading intelligence and hardware, our rack PDUs have delivered millions of hours of customer uptime. Raritan's focus on customers' unique needs has driven leading innovation across all its rack power distribution solutions, including rack PDUs, inline meters, hybrid rack transfer switches, and branch circuit monitoring systems.

What is the Bentek inverter power rack?

The Bentek Inverter PowerRack is a pre-fabricated mounting structure that supports string inverters, disconnects, combiners and other PV electrical BOS equipment. It was designed in consultation with leading inverter manufacturers to provide rapid and secure installation of string inverters in close proximity to the PV array.

It uses solar panels to generate electricity, stores it in lithium-ion or flow batteries, and powers data servers via inverters. This setup reduces reliance on grid power, cuts energy costs, and ...
