Which international trade issues will remain a concern for energy storage projects?

Two major areas of international trade that will remain causes of concern for energy storage projects are the application of tariffs and supply chain integrity.

Where can I search for antidumping rates online?

Where can I search for antidumping rates online (by commodity type or most recent)? The U.S. Customs and Border Protection maintains a searchable database of antidumping and countervailing duty messages that can be retrieved based on simple or complex search characteristics using keywords and Boolean operators.

Does the World Trade Organization regulate dumping?

The World Trade Organization regulates international anti-dumping measures but does not intervene in individual dumping cases. A notable example occurred in 2016 when the U.S. imposed significant anti-dumping duties on steel imports from China following a complaint from American steel companies.

How does tariff risk affect a battery energy storage system (BESS) project?

Mitigating tariff risk in battery energy storage system (BESS) projects is crucial for ensuring project financial viability, as tariff changes can significantly affect cost structures and overall project economics.
