What is an IP55 outdoor cabinet?

The second "5" indicates that the body can withstand the effects of water jets coming from any direction. This means that an IP55 outdoor cabinet can operate safely during rain, splashes, or routine external washing, making it suitable for most outdoor telecom and electrical installations.

What is an outdoor integrated cabinet?

Outdoor integrated cabinet is well suited for power equipment, batteries, telecom gear, all integrated into a robust, economical package. The cabinet contains internal mounting rails, which allow installation of standard " equipment. Support custom-made.

What is an IP55 enclosure?

IP55 enclosures offer a balanced level of protection for outdoor telecom, electrical, and industrial equipment, providing reliable performance across most climate zones. When properly selected and equipped, they ensure long-term operational stability even in demanding conditions.

What does IP55 mean?

The IP55 marking includes two digits that determine the nature and intensity of the enclosure's protection against external influences. The first digit "5" means that the cabinet is protected against dust to a level that prevents particles from interfering with the operation of telecom, electrical, or industrial equipment.
