Launched as a turnkey solution for businesses seeking to become more energy efficient, Soleco Energy has for the last five years specialised in large solar and battery ...

Following similar pieces in 2022/23, we look at the biggest energy storage projects, lithium and non-lithium, that we've reported on in ...

China has just brought the world's largest vanadium flow battery energy project online, marking a massive milestone in long-duration grid-scale energy storage.

The study projects that by 2030, renewable energy will account for about 23.5% of electricity generation, increasing to 37% by 2050. ...

This is an increase from the previously declared 30 per cent target, which was announced April 2017. In pursuit of the renewable energy target, the Government ...

Power utility Jamaica Public Service Company, JPS, is investing US\$300 million to construct Jamaica's largest solar power plant ...

A project in Jamaica, pairing utility-scale solar with battery energy storage at a microgrid could become 'a model for other countries in the Caribbean and beyond', the head of the country's ...

Power utility Jamaica Public Service Company, JPS, is investing US\$300 million to construct Jamaica's largest solar power plant and a battery storage facility, starting this month. ...

By seamlessly integrating solar power and battery storage technologies, the facility has reduced diesel generator usage by 85% while maintaining operational reliability.

The company is in the final approval stages for a project that will add 133 megawatts of solar power and 170 megawatts of battery storage to its energy portfolio over the ...

"This completion makes it one of Jamaica's largest commercial solar and storage project to date and will power LASCO's operations, also providing emergency backup power to ...

GSL Energy has successfully installed three advanced 14.34 kWh floor-mounted lithium iron phosphate energy storage systems in Jamaica. These systems, integrated with ...

"This completion makes it one of Jamaica's largest commercial solar and storage project to date and will power LASCO's ...

A project in Jamaica, pairing utility-scale solar with battery energy storage at a microgrid could become "a model for other countries in the Caribbean and beyond", the head ...

This project highlights the increasing demand for energy storage solutions in regions like the Caribbean, where integrating renewable energy sources and maintaining grid ...

Explore how battery energy storage systems are transforming Jamaica's power sector--cutting energy costs, reducing outages, and enabling ...

Explore how battery energy storage systems are transforming Jamaica's power sector--cutting energy costs, reducing outages, and enabling renewable energy growth.

KINGSTON, Jamaica--Jamaica is making strides in meeting its target of generating 50 per cent of its electricity from renewable ...
