What is a 4cabling outdoor wall-mounted cabinet?

4Cabling's outdoor wall-mounted cabinets protect your network equipment with powder-coated cold-rolled steel construction. Each cabinet features a 3-point locking system, adjustable 19" mounting rails and arrives fully assembled. Same-day dispatch Australia-wide ensures your network is operational as quickly as possible.

What materials do IP enclosures offer?

Steel. Stainless Steel. Aluminium. IP Enclosures offers a 5-year warranty across the full range of electrical enclosures, electrical cabinets and data racks. Tested to international standards and trusted in demanding applications, this warranty reinforces our commitment to long-term protection and reliability.

Which electrical enclosures are rated for IP55 protection?

The S2 range of electrical enclosures are rated for protection up to IP55. This range is wall-mounted, powder-coated galvanised steel, double door construction suitable for heavy duty applications. Powdercoated RAL7035 (Other colours available upon request) The robust monoblock body is fabricated using 1.5mm galvanised steel sheet.

Are your networking cabinets rated to IP45 or IP65?

Every cabinet comes fully assembled and ready to install, rated to professional IP45 or IP65 standards for complete protection against dust, moisture and weather extremes. Whether you're dealing with scorching heat, driving rain or coastal conditions, these cabinets keep your critical networking gear safe and operational.
