Should lithium batteries be shipped by air?

Regulations for shipping lithium batteries by air are in place to protect everyone who would come in contact with a lithium battery shipment while it is being transported as air cargo; with training being required for everyone in this supply chain, to protect the aircraft, and the people in the aircraft, that is carrying the batteries.

Does IATA offer a shipping lithium batteries by air course?

For proper training on dangerous goods including the Shipping Lithium Batteries by Air course, IATA offers a wide variety of safety courses to ensure you are competent in dealing with dangerous goods. This is required for all who participate in the shipping and handling of dangerous goods.

Can you transport lithium-ion batteries on a plane?

Since 2016, the transport of lithium-ion batteries aboard passenger aircraft in bulk shipments has been prohibited so you'll have to find the relevant carrier. This prohibition is not applicable to batteries packed with, or contained in equipment.

Can I send lithium batteries in airmail?

No, you cannot send lithium batteries, by themselves, in the airmail. You will need to contact your local postal authority to see if you be able to ship them by surface methods i.e. sea, road and rail. If you have to send the lithium batteries by air, then you will need to send them with a freight company.

Energy cells, operating under the state-owned FSOG and overseen by Lithuania's Ministry of Energy, is at the forefront of Europe's energy sector ...

Since 2016, the transport of lithium-ion batteries aboard passenger aircraft in bulk shipments has been prohibited so you'll have to ...

This guide aims to explore the various dimensions of lithium battery air shipping, from understanding the different shipping options to navigating the regulatory maze, to help ...

What You Need to Know About the New Lithium Battery Air Transport Regulations The new regulations affect how lithium batteries and sodium-ion batteries are shipped by air, ...

Lithuania added record solar capacity in 2024, pushing cumulative installations to nearly 2 GW, driven largely by residential ...

Each distributor is responsible for ensuring that staff who transport or offer to transport the battery are trained in accordance with the applicable transportation regulations.

SoliTek also provides solar panel installation services exclusively with their manufactured panels only in Lithuania, with a team of 11 in-house ...

Everyone wants a safe, durable, high quality and secure battery enclosure. However, finding the right information about these ...

AZE's outdoor battery enclosure includes standard features with battery support, security and sealing abilities and reversible racking rails, 500W ...

Are lithium batteries allowed in air transport? Here's a fully updated overview of the current air transport regulations for all types of lithium batteries and devices.

AZE's outdoor battery racks and battery enclosures keep your batteries safe from weather, vermin and damage, we have enclosures for wall or floor mount with models available for indoor and ...

You know, shipping battery energy storage cabinets isn't like moving furniture. These 10-ton beasts packed with lithium-ion cells require military-grade planning. Just last month, a Texas ...

Climate controlled products such as air conditioners, heat exchanger, or TEC coolers are installed on outdoor battery cabinet for keeping a stable temperature inside cabinet so as to increase ...

To keep this critical technology moving through global supply chains, shippers must understand how to safely ship lithium-ion batteries by air.

To keep this critical technology moving through global supply chains, shippers must understand how to safely ship lithium-ion batteries by air.
