What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

What makes DDB a good telecommunication enclosure?

Noticeably lighter than steel, yet strong enough to rack even the heaviest equipment. Provides superior solar protection with its large overhang roof design. Since 1996 DDB has been solving the most complex problems within the telecommunication enclosure industry.

Why should you choose Shield for your outdoor telecom enclosure?

This solution is also ideal for rapid deployment at the network edge. SHIELD offers a wide range of customization features for your outdoor telecom enclosures such as machining, special dimensions, custom colors, and additional protection for harsh environment.

Leading global manufacturer of indoor and outdoor NEMA 3R to 4X enclosures for Telecommunication, Aerospace, Green Energy, Oil Gas and Utilities markets.
