What is an outdoor floor standing server cabinet enclosure?

AZE's outdoor floor standing server cabinet enclosures are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. They have a rain hood and water and dust proof polyurethane door joint strip features, all fixtures are internal to the cabinet to provide a secure solution.

What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

What is an outdoor server rack?

AZE's ' outdoor server racks and outdoor network cabinets are ideal for protecting sensitive network systems from any damage due to impacts and harsh climatic conditions. These are manufactured from galvanized steel, aluminum or stainless steel material, making them the perfect layer of security against outdoor bad weather conditions.

Are outdoor server cabinets waterproof?

The ' waterproof outdoor server racks and cabinets safeguard your sensitive electronics in outdoor environments and ensure they function smoothly and reliably. Our outdoor server cabinets are built to withstand everything, from rain and snow to dust and hot sun. They're even tough enough to resist vandalism.
