What is India's first utility-scale energy storage installation?

The project, inaugurated by Delhi Power Minister Ashish Sood, is hailed as India's first commercially approved utility-scale energy storage installation. Installed at the...

What is India's largest battery-inverter power system?

Minister Sood called the project a "historic milestone" for both Delhi and India's energy sector, setting a new benchmark in regulatory and technological progress. Developed with support from IndiGrid, GEAPP, and TERI, the system is described as South Asia's largest standalone battery-inverter power setup.

How will Delhi's energy storage system help reduce power outages?

The government intends to replicate this model across Delhi to eliminate power outages, particularly during peak demand periods. The advanced energy storage system brings several benefits, including improved grid reliability, better power purchase efficiency, and seamless integration with renewable energy sources.

IndiGrid, a power sector Infrastructure Investment Trust (InvIT) in India, has announced the commissioning of India's first regulated utility-scale standalone battery energy ...

India's clean energy ambitions are accelerating with the rise of top-tier BESS manufacturers powering the grid.

A battery storage "gigafactory" in India will commence operation in October this year, with a planned ramp-up to 20GWh annual production capacity within three years.

Mobec Innovation's mobile energy storage systems receive approval through Oil Lube Systems partnership, supporting India's largest ...
