Where is India's first large-scale battery energy storage system being built?

The Delhi government is building India's first large-scale battery energy storage system (BESS) at the BSES power grid in Kilokri, South Delhi. This system will store electricity in batteries and supply power during peak hours or emergencies. With a 20 MW/40 MWh capacity, it will provide four hours of daily power to about one lakh residents.

Will Delhi's first standalone battery energy storage system improve power supply?

Delhi's first standalone battery energy storage system will enhance power supply for 100,000 consumers, ensuring reliability during peak demand and outages.

Will India's first standalone battery energy storage system be operational soon?

New Delhi, Mar 17 (PTI) The country's first commercially-approved standalone battery energy storage system (BESS) capable of four-hour daily supply being set up at Kilokri in South Delhi will become functional soon, power company BSES said on Monday.

Will Delhi's battery system be ready for public use?

According to Ashish Sood, Delhi's Power Minister, the battery system will soon be ready for public use. Situated in South Delhi's Kilokri, the battery system will operate with a capacity of 20 MW/40 MWh. The minister visited the site on Wednesday, and "This is like a huge inverter.
