---

The Norwegian energy company Statkraft has contracted AFRY to conduct a feasibility study on optimising the operation of Norway's largest pumped storage power plant in ...

This article explores the strategic locations, technical innovations, and market drivers behind these projects - perfect for renewable energy investors or engineering professionals seeking ...

In comments at the ceremony, Pourmokhtari said, "It is a great honour to launch the largest investment in energy storage in the Nordics, with 211 MW of electricity currently ...

Finnish clean energy company Fortum has launched a two-year feasibility study to explore the potential of a new pumped storage ...

It will now seek to examine commercial, technological, environmental and regulatory conditions for new pumped hydro storage ...

A battery energy storage system (BESS), battery storage power station, battery energy grid storage (BEGS) or battery grid storage is a type of energy storage technology that uses a ...

From advanced storage solutions to nuclear innovation, learn how technological breakthroughs are paving the way for a more flexible, efficient and sustainable energy future.

SEB Nordic Energy's portfolio company, Locus Energy collaborates with Ingrid Capacity to build the largest battery energy storage project in Finland, contributing 70 MW/140 ...

The Elektra Energy Storage Project, Sweden's largest battery storage project, is now fully operational. Located in Landskrona, southern Sweden, the project will provide ancillary ...

Two of the Nordic country's biggest battery energy storage projects have been announced just days apart.

Developer and optimiser Ingrid Capacity and storage owner-operator BW ESS have been working together to deliver 14 large BESS projects across the Swedish grid in tariff ...

Olkiluoto Nuclear Power Plant with two existing units. The third unit and Finland's fifth (far left) is computer manipulated and was planned to be ...

Neoen has launched construction on a 93.9MW/93.9MWh battery energy storage system (BESS) in Sweden, the largest in the country.

Among her comments at the ceremony, Pourmokhtari said: "It is a great honor to inaugurate the largest energy storage investment in ...

The third initiative is the modernisation of the Juktan HPP on Lake Storjuktan next to the Ume River in central Sweden; the conversion ...

European Energy recently announced that its Cotswolds Solar and Battery Storage Park in Denmark has been officially connected to the grid. This project combines the original ...

The project will add 70 MW/140 MWh of storage capacity to SEB Nordic Energy's Finnish portfolio, which already includes wind and hydropower. Located in Nivala Municipality ...

From advanced storage solutions to nuclear innovation, learn how technological breakthroughs are paving the way for a more flexible, ...
