What is a solar battery backup system?

Solar battery backup guarantees a power source-- even during a grid service failure or natural disaster. When the grid goes down, a solar battery backup system automatically detects and transitions your solar system from grid power to backup power. Protect your home from outages with our solar battery backup kits. Shop What's in a kit? FAQ

What is an AC-coupled Solar System?

In an AC-coupled system, the solar panels and the energy storage are connected to the AC side of the inverter. This setup allows for greater flexibility in the choice of solar panels and battery storage, as they can be installed independently and easily replaced or upgraded.

Can I add battery backup to my solar system?

The federal Inflation Reduction Act of 2022 also contains incentives that may affect your decision to add battery backup to an existing solar system: Through 2032, you'll be able to claim 30% of the project cost as a tax credit when you file with the IRS.
