What is a network rack & cabinet?

Network Racks and Cabinets are essential for any network. Cabinets are used for storing routers, patch panels, switches and a wide variety of networking equipment and accessories. Network cabinets support large, modular network switches by providing additional space for cable management and side-to-side airflow solutions.

Are network cabinets compatible with server cabinets?

Our network cabinets seamlessly interface with server cabinets, creating a cohesive infrastructure that simplifies power distribution and monitoring. Compatibility with standard 19-inch rack units ensures that server rack cabinets and network racks can be installed side-by-side.

What is a 12U Outdoor Network cabinet?

AZE's 12U Outdoor network Cabinet are designed to protect your sensitive network equipment from harsh environments, with waterproof and dustproof features to safeguard it from the elements, while still keeping the equipment secure outside. Includes: locking door with gaskets and filters, 19 inch rackmount rails, wallmount brackets or hardware.

What materials are available for outdoor Telecom cabinets?

Outdoor Enclosures Material Options: Cold Steel, galvanized steel, stainless steel or aluminum steel available.
Outdoor Telecom Cabinet Cooling options: such as cooling fans, air conditioner or heat exchanger available.
Provides a secure, climate controlled environment for any electronic equipment.
