-----  
Should batteries be stored in a battery safety cabinet?

If comprehensive fire protection is required for battery storage, battery safety cabinets are the right choice. On the other hand, if the focus is purely on storage and orderly charging, normal charging cabinets are sufficient. Should defective batteries be stored?

What is the difference between simple charging cabinets and fireproof battery cabinets?

Simple charging cabinets primarily provide access controls, while fireproof battery cabinets have sophisticated safety mechanisms to protect the environment, especially in the event of a fire. These safety mechanisms also include intelligent extensions, such as the Smartbox from D&#252;perthal.

Why do you need a batteryguard Battery Cabinet?

A battery fire can devastate your business. With a Batteryguard battery cabinet, you charge and store your batteries with complete peace of mind. You protect your staff, prevent damage, and meet the requirements of your insurer. And in some countries, you may even benefit from financial incentives or grants.
