-----

An implementation agreement is in place between Serbia's Ministry of Mining and Energy, utility company Elektroprivreda Srbije ...

Fortis Energy has secured a construction permit for a 270MW PV plant combined with a 72MWh battery energy storage system in Serbia.

Let's cut to the chase: when you hear &quot;Serbia energy storage power station&quot;, do you imagine giant Tesla Powerpacks humming in a field? Well, think bigger. Serbia's leap into ...

Turkish renewables company Fortis Energy announced plans to build a 110-MWp solar farm, coupled with 31.2 MWh of energy storage, in the northern Serbian municipality of Sid.

Serbia's TSO Elektromreza Srbije (EMS) confirmed to Balkan Green Energy News that it has received the first applications for signing the agreement on the preparation of the ...

Turkish renewable energy company Fortis Energy has announced plans to construct a 110 MW solar power plant near the town of Sid in northwestern Serbia. The Erdevik solar project will ...

Located throughout the country, these solar power plants will help Serbia improve energy security, avoid expensive energy imports, and achieve ...

The Nikola Tesla B thermal power plant (TPP) is a part of Serbia's biggest power project Nikola Tesla (TENT) and serves approximately one-fifth of the country's electricity needs. Operated ...

Turkey-based developer and IPP Fortis Energy has acquired a solar and battery energy storage system (BESS)

project in Serbia. The ...

Croatia's Ministry of Environmental Protection and Green Transition has initiated the process to determine if a full environmental impact study is necessary for the proposed 99 MW ...

However, the dwindling supply of coal and the growing global demand to shift to renewable energy due to increasingly visible climate changes are placing Serbia under serious ...

Turkish renewables company Fortis Energy announced plans to build a 110-MWp solar farm, coupled with 31.2 MWh of energy storage, ...

This hybrid solar and storage project represents a strategic investment aimed at enhancing grid reliability, integrating renewable energy, and reducing dependence on fossil ...

Turkey-based developer and IPP Fortis Energy has acquired a solar and battery energy storage system (BESS) project in Serbia. The company plans to begin construction at ...

Serbia's TSO Elektromreza Srbije (EMS) confirmed to Balkan Green Energy News that it has received the first applications for signing ...

The Serbian Government has approved the development of a spatial plan for constructing large-capacity self-balancing solar power plants paired with battery energy ...

Storage: Large-scale deployment of variable/intermittent renewable power sources--i.e., wind and solar power--make grid balancing more challenging and can ...

Fortis Energy acquires Serbian solar and storage project. Fortis Energy, a Turkey-based developer and Independent Power Producer (IPP), recently made headlines by ...
