-----  
How much does a solar battery cost in Melbourne?

At Solar Battery Group, we've helped thousands of Melbourne families gain energy independence with high-performance solar batteries, starting from just \$2,480 installed for 5kWh (after rebates). Whether you want to slash bills, avoid peak charges, or simply future-proof your home, there's never been a better time to make the switch.

Which solar storage batteries are available in Australia?

These are some of the most commonly used brands in the Australian market, but there are many other brands offering solar storage batteries as well, including Q Cells, Sungrow, Goodwe, Growatt, and many more. Speak to us about which battery best fits your needs. **FIND THE RIGHT BATTERY.**

What services do solar battery installers offer in Melbourne?

**Tailored Assessment:** Our solar battery installers in Melbourne assess your property and seamlessly integrate solar batteries to maximise the performance of your current setup. **After-Sales Service:** Beyond smooth solar battery installations, we also offer comprehensive after-sales and post-installation support.

Why should you install a solar battery in Melbourne?

**Grid Independence:** With a solar battery installation in Melbourne, you can achieve greater energy self-sufficiency, reducing your dependence on the utility grid and protecting against power outages.
