Who is building a battery energy storage system in South Africa?

Scatec started construction on one of its winning projects in December while EDF is also building projects for RMIPPPP. A consortium including CIP and EDF has won preferred bidder status for three battery energy storage system (BESS) projects in South Africa.

Why should we invest in battery energy storage in South Africa?

We applaud the South African government's commitment and dedication to the renewable energy procurement programmes. Battery energy storage will continue to play an important role in the energy transition, and we will continue to be at the forefront across our core markets," says Scatec CEO Terje Pilskog.

How much does Scatec's battery energy storage project cost?

The estimated total capex for the battery energy storage project is ZAR 2.2 billion (USD 120 million) of which Scatec's EPC contracts account for approximately 80%. The project will be financed by 90% non-recourse project debt and the remaining by equity from the owners.

Scatec will be the engineering, procurement, and construction (EPC) provider and provide operations & maintenance (O&M), as well as asset management (AM) services to the ...

Mulilo and Scatec have won the five battery energy storage system projects offered in South Africa's latest battery energy storage independent power producers" ...

Modular construction is transforming the way large-scale EPC (Engineering, Procurement, and Construction) projects are executed.
