Who owns UK solar & battery projects?

Rivington Energy acquired 139 MW of co-located solar-plus-battery projects in England from Gridserve, adding flexible capacity and accelerating its British buildout strategy. Chint Solar and London-based Voltis formed a joint venture to develop roughly 5 GW of UK solar and battery storage, targeting bankable, grid-friendly projects.

Who are the UK energy storage companies?

TotalEnergies, Drax, New Energy Partnership and Queequeg Renewables all feature in the latest UK energy storage update. Battery storage units developed by UK firm Invinity Energy Systems. Image: DCT Media/STS Group

How is the UK's solar energy and battery storage sector changing?

The UK's solar energy and battery storage sector is undergoing a rapid transformation, bolstered by ambitious climate targets and supportive policies. Solar photovoltaics (PV) capacity has rebounded since the end of feed-in tariffs, while energy storage is scaling up to enhance grid reliability.

Which UK solar projects did boom power sell to Enrany power?

Boom Power completed the sale of two UK solar projects totaling about 110 MW to Enrany Power, executing its develop-and-sell strategy. Ampyr Solar Europe secured planning consent for two UK solar parks totaling 52.5 MWp, including an integrated battery at one site to boost flexibility.

UK solar and energy storage markets are booming, driven by strong policies and innovation, with massive growth and investment projected by 2035.

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy ...
